

Horizon

By Mövenpick Hotel Brussels Airport

Enjoy the best Belgium has to offer

At Horizon, Belgian cuisine meets surrealism in a setting that seems straight out of a dream. Like the art movement, emotion is central to the restaurant's experience with an experience that stimulates all your senses.

Culinary delights include magical dishes with high-quality ingredients; on your plate you will find only seasonal and local products. The interior features playful details and surprising elements that make you stop and think for a moment, as if reality is not quite what it seems. On the eighth floor, you look out over the horizon of Zaventem. Between the clouds, we let you enjoy starter, main course and dessert.

Apart from the interior and on your plate, you will also find Belgium as a common thread in the wine list full of Belgian winemakers abroad. One by one people who have made their dreams come true on international soil. From the rolling hills in France to sun-drenched vineyards in Italy. Each one unique stories full of dedication, courage and passion. Each bottle on our menu bears not only the signature of a Belgian soul, but also the essence of the country in which the wine was created. The result? Wines that perfectly bring together tradition and innovation and invite you to taste.

Sit back, relax and enjoy a total experience of which you will literally be in the clouds. Scan the QR code and be taken on an inspiring journey through the wonderful world of wine.

Scan the QR code & be inspired by the story of these winemakers and their link to Belgium.
